CIGRE SESSION

47

Paris, France
August 26-31, 2018

ELECTRIC POWER SYSTEMS

9 000 Power Systems Experts from around the globe

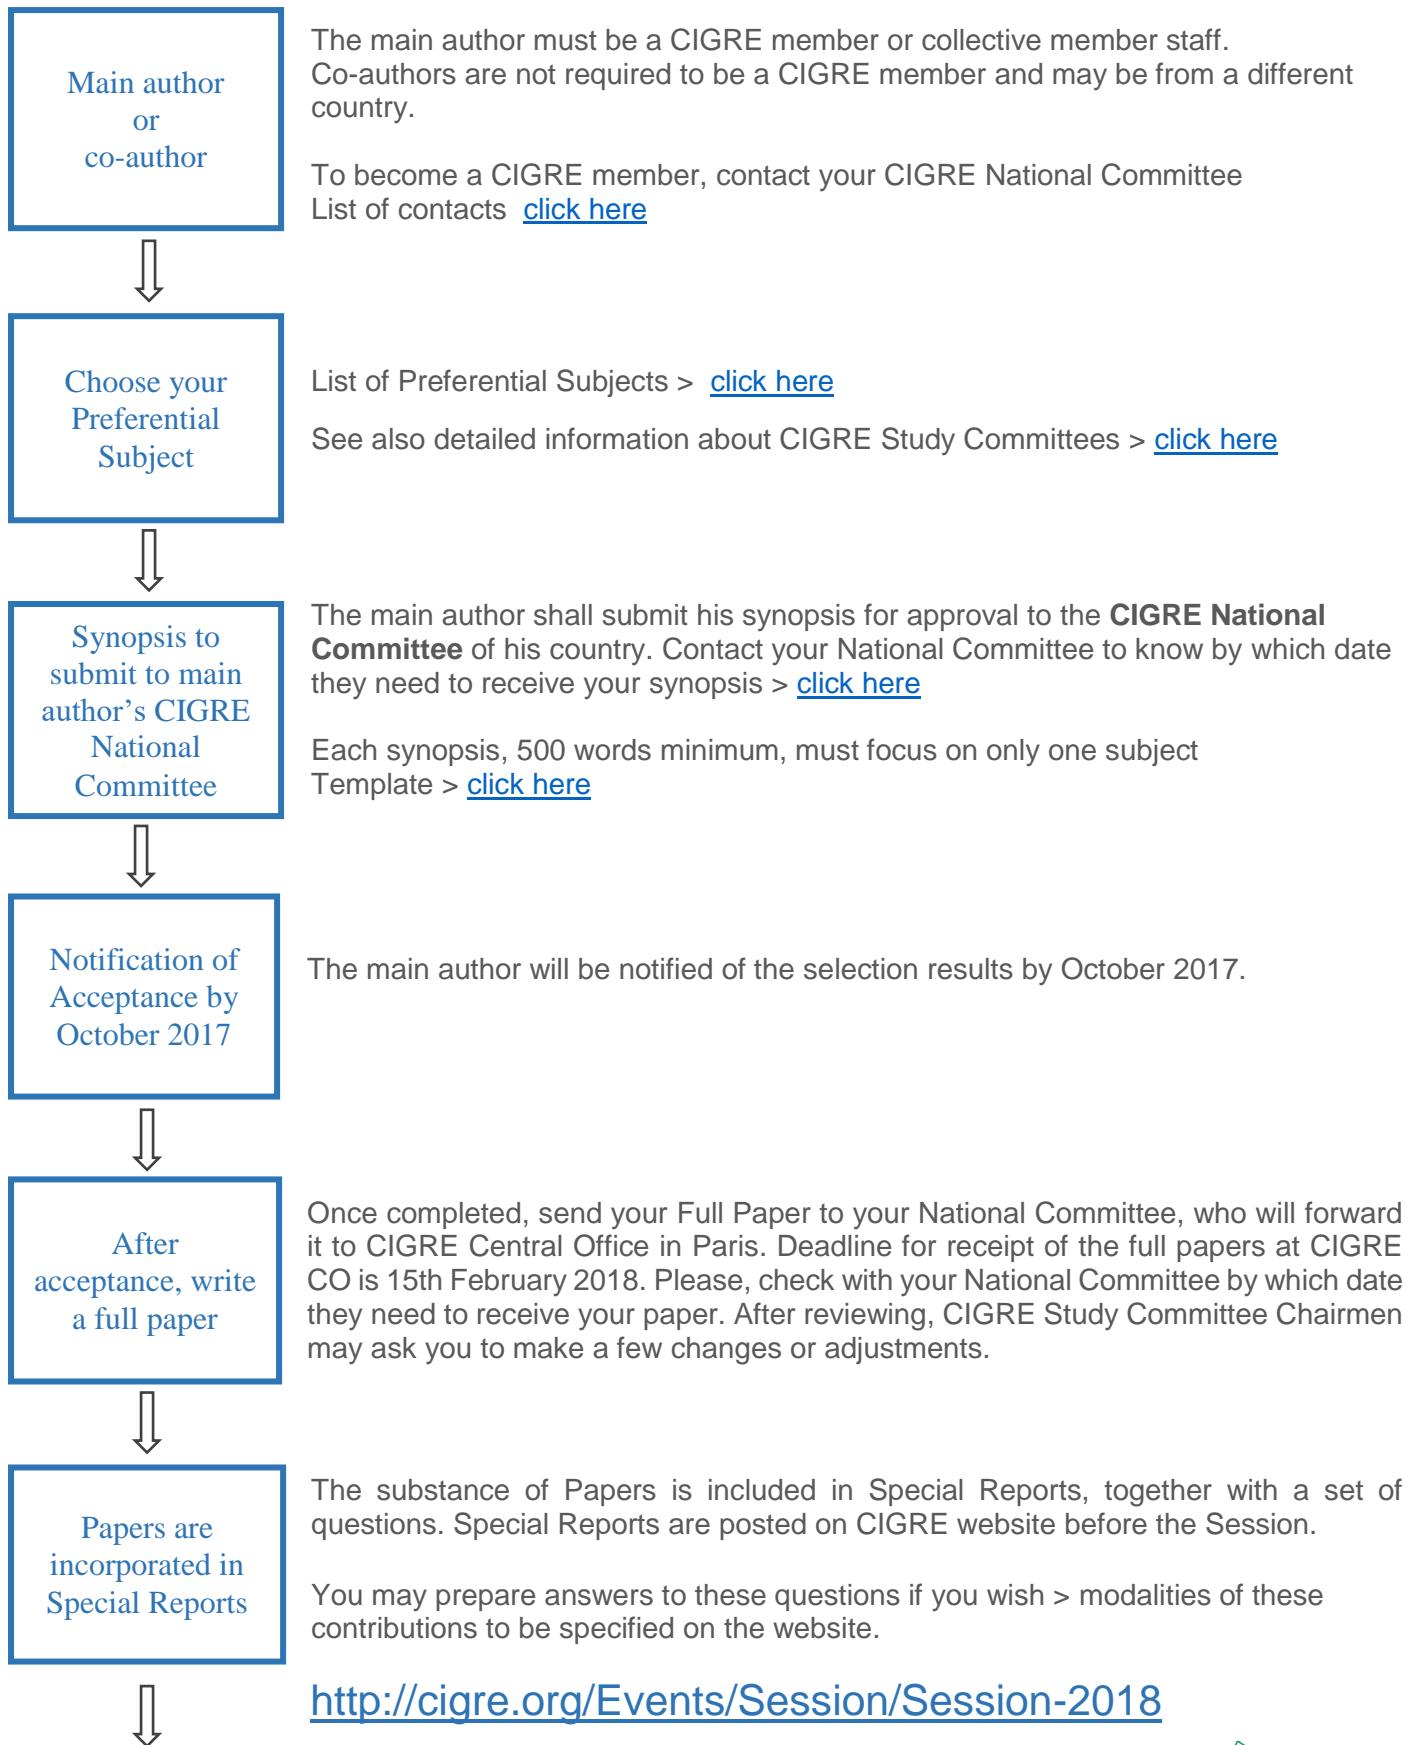

3 300 Delegates - 559 papers - 1280 contributions

Session Papers - General Process

*Within the framework of preferential subjects,
CIGRE encourages the submission of papers representing all aspects of the
electric power system including, but not limited to :
Generation, Transmission, Distribution, Storage and End Use.*

CIGRE International Council on Large Electric System is a permanent non-government and non-profit making International Association. It is the worldwide forum for the professionals of the Electrical Power Industry with a total number of 14 000 members over 90 countries.

DURING CIGRE 2018 SESSION **26 > 31 August 2018**

Group Discussion Meetings

The delegates discuss around the set of questions given in the Special Report. Contributions prepared in advance or spontaneous, are presented to the audience.

There is no individual presentation of papers during Group Discussion Meetings.

Poster Sessions Present your paper

Presentation of Papers is made by the Authors during Poster Sessions. Presentation is mandatory. Before proposing a Paper, make sure you will attend the Session.

The main author or co-author must register as Delegate at CIGRE Session to attend the Group Discussion Meetings and present papers during the Poster Sessions.

Registrations should be made online before the Session, from mid-January to mid-August 2018 at the latest. No registrations on site in Paris.

Authors should refrain from any commercial advertising
